

Following our elections, the School Council of 2023 was formed.

**This is us!**

We received our Special PIN badges in our whole school assembly back in September.

We have had two meetings where we learnt to follow agendas, take minutes and give apologies for our classmates if they are absent.

We have enjoyed discussing how to further improve our school along with taking information and questions back to our classes to share and discuss further.

The first meeting was looking at plans and interior designs for the girls KS2 toilets. We are going to have a makeover and it was our job to listen carefully to all the information and the updates Miss Daley provided us with, so that we could then go and share with our class. As a class we then held a vote for the design and colours we liked. These were then collected and added together in our next School Council meeting. The design with the most votes would be the design we would have. The Subtle rose colour had the most votes and is going to be the colour of the Junior Girls' toilets. Work will begin at Easter this year. Exciting!

In our last meeting, together with Miss Daley we worked out a rota for the School Council children to become Post Officers – involving sorting and delivering Christmas cards.

This is our Christmas Post box in which children can post their Christmas cards at the start of the day and it is our responsibility to empty the Post box at lunchtime. We sort into classes and deliver every card so that each child and teacher get their cards in time for Christmas.

**This has been fun!**

***All the School Council wish everyone in our school community a happy and fun packed Christmas, remembering the true meaning of Christmas.***

***We look forward to sharing more of our school news with you in the new year – 2024!***
